Dear Retail Service Providers (RSPs),

Re: SBAS Final Access Determination Rebate

We are offering to apply a rebate to certain eligible superfast broadband services on the Layer 2 Ethernet Bitstream Services - Unlimited CVC pricing structure on request from an RSP for the pricing set out in the ACCC *Final Access Determination No. 1 of 2024 (SBAS) (SBAS FAD)*. Further details are set out in the **Appendix**.

In summary, following a request from an RSP:

- We will provide a rebate for a portion of the Monthly Service fee on eligible services on the Layer 2 Ethernet Bitstream Services – Unlimited CVC pricing structure.
- The rebate applies to our 25Mbps and 50Mbps wholesale access services to which the SBAS FAD applies as set out in the **Appendix**.

This rebate replaces the rebate set out in our previous letter dated 28 January 2025 (Re: Rebate regarding State-based Point of Interconnection services) (**2025 Letter**).

Next steps

In order to receive this rebate, please submit a request in writing to RSP@opticomm.com.au

If you have previously submitted a request in response to our 2025 Letter, you will automatically receive the rebate outlined in this letter and do not need to submit another request.

If you have any questions regarding these changes or the information set out below, please contact us on RSP@opticomm.com.au.

Thank you for your support, and we look forward to our continued shared success.

Yours sincerely,

Brendan Wilson

We will provide further notice about the application of the rebate, including any changes that we make to pricing for our services closer to the expiry date.
